The publication fee for the Registered Report (\$750) is waived for manuscripts associated with Registered Report Protocols submitted by 31 July 2020.

Open Access Funding Support

Institutional Account Program

Institutions participating in the PLOS Institutional Account Program administer payment for partial or full publication fees for their institutions' authors. To be eligible, authors must be a **corresponding author** affiliated with the institution or agency in the [Institutional Account Program](#) (fully paid or restricted).

PLOS Global Participation Initiative (Low- and Middle-Income Country Assistance)

The PLOS Global Participation Initiative (GPI) provides fee assistance to authors whose research is funded primarily (50% or more of the work contained within the article) by an institution or organization from eligible low- and middle-income countries. If the author's research funder is based in a [Group 1](#) country, the PLOS GPI will cover the entire publication fee and there will be no charge. If the research funder's country is part of [Group 2](#), the PLOS GPI will cover part of the publication fee and the remaining publication fee will be \$500 USD.

Group 2 PLOS GPI country authors who need to request additional support should apply for [PLOS Publication Fee Assistance](#) instead of the PLOS GPI. View [PLOS GPI](#) for additional information. This is subject to eligibility review.

PLOS Publication Fee Assistance (PFA)

The PLOS Publication Fee Assistance (PFA) program is intended for authors unable to pay all or part of their publication fees and who can demonstrate financial need.

Authors must apply for PFA during article submission. Requests made during the review process or after acceptance will not be considered. Authors cannot apply for fee assistance by email or by writing to the journal editors.

Authors should exhaust all alternative funding sources before applying for PFA, including the author's or co-authors' institution, institutional library, government agencies and research funders. Funding disclosure information provided by authors will be used as part of the PFA application review.

Applications will be considered on a case-by-case basis. To apply, complete the application during the submission process below. Decisions on PFA are usually made within 10 business days. Information about an applicant's application for fee assistance will not be disclosed to journal editors or reviewers. PLOS publication decisions will continue to be based solely on editorial criteria.

View [PFA](#) for additional information.

5. Select your institution from the drop down

Institutional Account Program

The institutions listed below have agreed to be invoiced directly and will cover the **full** publication fees of PLOS journals for their **corresponding authors**. The institutions reserve the right to accept or reject who they will fund per their internal funding policies. For publication fees in which the institution does not accept responsibility following their review, PLOS will invoice the authors individually. Please note that some UK Institutions will only provide Open Access funding for publication costs associated with research projects that are funded by Research Council UK (RCUK) or Wellcome Trust grants.

To be eligible, you must be the **corresponding author** affiliated with the institution. Please check your institution's Open Access policy by clicking on their account link in our list of participating institutions: <https://www.plos.org/institutional-account-participants>

Select your institution's name from the drop down menu.

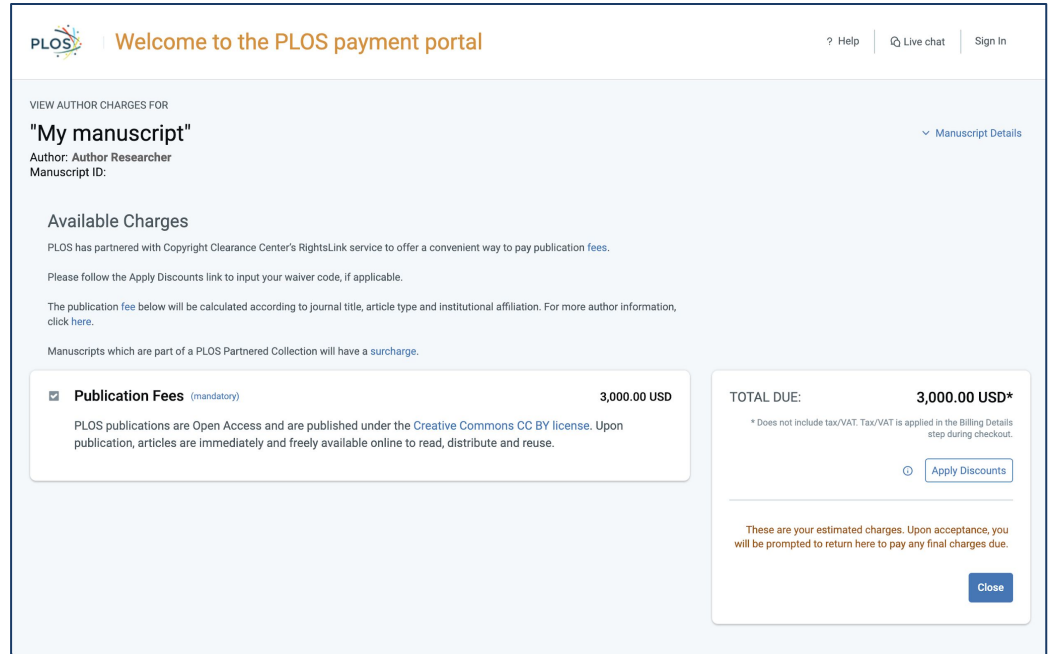

Once you make a selection, *no further action is required*. No more drop downs or text boxes will appear.

For Biology, Medicine, and Sustainability & Transformation Only

“Quote” is automatically generated by CCC RightsLink at time of submission.

The quoted fee should total \$0 if the institutional affiliation has been properly done during the submission process.

This serves as a helpful final check to ensure that the self-affiliation has properly paired your manuscript with your institution’s publishing agreement.

The screenshot displays the PLOS payment portal interface. At the top, the PLOS logo is on the left, followed by the text "Welcome to the PLOS payment portal". On the right side of the header, there are links for "Help", "Live chat", and "Sign In".

The main content area is titled "VIEW AUTHOR CHARGES FOR" and features a manuscript titled "My manuscript". Below the title, it lists "Author: Author Researcher" and "Manuscript ID:". A link for "Manuscript Details" is located on the right.

The section "Available Charges" contains the following information:

- PLOS has partnered with Copyright Clearance Center's RightsLink service to offer a convenient way to pay publication fees.
- Please follow the Apply Discounts link to input your waiver code, if applicable.
- The publication fee below will be calculated according to journal title, article type and institutional affiliation. For more author information, click here.
- Manuscripts which are part of a PLOS Partnered Collection will have a surcharge.

A table of charges is shown with one entry:

Charge Type	Amount
<input checked="" type="checkbox"/> Publication Fees (mandatory)	3,000.00 USD

Below the table, a note states: "PLOS publications are Open Access and are published under the Creative Commons CC BY license. Upon publication, articles are immediately and freely available online to read, distribute and reuse."

On the right side, a summary box displays "TOTAL DUE: 3,000.00 USD*". Below this, there is a link for "Apply Discounts" and a "Close" button at the bottom right. A disclaimer at the bottom of the summary box reads: "These are your estimated charges. Upon acceptance, you will be prompted to return here to pay any final charges due."

That's it!
